School Age Immunisation Team

*Please be aware that the form closes **24hours** before the day of the vaccination.

*If your child has a long-term medical condition they can access this vaccine both at your GP surgery or in School . For those children that cannot have the nasal spray, the injected flu vaccine is recommended.

Some people may not accept the use of porcine gelatine in medical products. The nasal flu vaccination is considered the most appropriate vaccine, however if this is not suitable, there is an **alternative injectable porcine free vaccine** available this year. This will be an injection, rather than a nasal spray and may need to be given in a clinic setting, rather than school. If you would like your child to receive the alternative vaccination please, contact the team on **0300 124 0366**
