WHAT IS PRIDE MONTH?

Every June, many countries across the world celebrate Pride Month. It is a very special month as it celebrates people that are part of the LGBTQ+ community.

It is about acceptance, equality and the celebration of achievements that the LGBTQ+ community have achieved.

It is celebrated in June because this was when the Stonewall riots began in the year of 1969. They were an important series of protests for the community because they fought for the right of being free as part of the LGBTQ+ community.

Pride is all about loving yourself for who you are and not caring about what people think about you. Happy Pride Month everyone!
